

Help! Is it Dyslexia? With Carla McNeil

Powered by Learning Matters

Come along and hear from a Mum of a dyslexic teenager... *"we passed level 2 whoop whoop."* Carla McNeil is an ex Principal, classroom teacher, and now an education consultant leading the way in supporting parents and schools to make a bigger difference to all learners.

In this engaging 2 hour presentation, Carla will share her journey of parenting and leading others to make a difference to those with dyslexia and reading differences.

This is an honest recount of:

- What she would have done differently
- If she had had her time again
- What has worked
- What hasn't worked

This will have you experiencing many 'aha' moments, sharing in the emotional journey and walking away with clarity and a sense of connection.

**It really does take a village to raise a child with a learning difference.
Come along and hear how you can make a bigger difference to your child and others.**

Practical tips include:

- What to look for if you suspect dyslexia
- Teaching a sight word vocab
- Navigating your way through the schooling system
- Advocacy tips
- Dealing with emotions and stress at home

Suitable for:

- Parents or teachers of children who struggle
- Anyone who works with children who wonder how you are going to move them forward with reading and writing
- Any of you who feel like you are missing a key ingredient
